Combined Advance Directive for Health Care
(Combined Proxy and Instruction Directive)

STATEMENT OF BELIEF

Catholics believe that life is a gift of a loving God. Life is a holy gift for which we are responsible, but do not own. We believe that assisted death and suicide destroy human life and are never allowed.

As an adult, I have the right to make decisions about my health care. As a Catholic, I may never choose my own death as an end or a means. There may come a time when I am unable to express my own health care decisions. By writing an advance directive, I give instructions and wishes for my future health care decisions. This advance directive for health care shall take effect when I am not able to express my health care decisions, as determined by my attending doctor. I direct that those responsible for my care make health care decisions according to my stated wishes. I direct that this advance directive be included in my permanent medical record.

Part One: Naming My Health Care Representative

A) I have chosen the following person to be my Health Care Representative.

Name _____

Address _____

City_____State_____ZIP _____

Telephone Number _____

He or she will be my health care representative to make my health care decisions when I am not able to speak for myself. If my wishes are not clear or events take place that I have not talked about, I ask that my health care representative make the decisions based upon what he or she knows of my wishes.

I have talked with my health care representative about this responsibility. He or she has willingly agreed to accept this role.

B) I have chosen the following person(s) as my Alternate Health Care Representative, if the person I have chosen above is not able, not willing, or not available to act as my health care representative:

1. Name _____

Address _____

City_____ State _____ZIP_____

Telephone Number _____

OR

2. Name _____

Address _____

City_____ State _____ZIP_____

Telephone Number _____

He or she will be my health care representative to make my health care decisions when I am not able to speak for myself. If my wishes are not clear or events take place that I have not talked about, I ask that my health care representative make the decisions based upon what he or she knows of my wishes.

I have talked with my health care representative about this responsibility. He or she has willingly agreed to accept this role.

Part Two: Treatment Choice Instructions

In Part Two, you are asked to give directions about your future health care. This will mean making important and difficult choices. You need to think about and write down different situations when different types of medical treatments, including life-sustaining actions, should be given or should not be given. Before finishing this part, you should talk this over with your health care representative, doctor, priest, deacon, spouse, family members or those who may be responsible for your care. It is suggested that from time to time you look over these instructions with these same people to make sure that your wishes are still the same.

PLEASE TAKE TIME TO LOOK OVER ALL OF PART TWO

BEFORE COMPLETING THE FORM.

GENERAL INSTRUCTIONS: I direct the people who are responsible for my care to carry out the following:

• **Initial one of the following statements -- either A or B.**

_____**A.** I direct that all medically indicated treatments and food and water (through tubes if necessary) be given to maintain my life, no matter what my physical or mental condition.

(Skip B & C)

OR

_____**B.** If a serious health condition occurs and my primary doctor and at least one other doctor who has personally examined me, decide that the irreversible process of dying has begun and death is very near, I direct **not** to have treatments that would only prolong my dying. If these treatments have been started, they should be stopped. I also want to be given all necessary medical care appropriate to stop pain and to make me comfortable.

(Go to C)

C. If I have been diagnosed as being in a permanent coma or in a persistent vegetative state after being examined by my primary doctor and at least one other doctor who is qualified to make this decision, **choose either 1 or 2.**

_____**1.** I direct that **extraordinary*** medical care, as understood in the teachings of the Catholic Church**,** including food and water (through tubes if needed) shall be used no matter what my physical or mental health.

OR

_____**2.** I direct that **extraordinary*** medical care, as understood in the teachings of the Catholic Church, shall **not** be used. I direct that food and water (through tubes if needed) be continued unless or until the benefits of this food and water are clearly outweighed by a definite danger or burden, or are useless.

* **Extraordinary** medical care is understood as those medicines, treatments or operations which may be very expensive, may cause excessive pain or other extreme difficulties or which may offer no reasonable hope of benefit.

Examples of extraordinary measures that I would want are as follows:

_____

_____

_____

D. If I am **pregnant** and I am diagnosed as being in a permanent coma, in a persistent vegetative state or that the process of dying has begun and death is near, I direct that all medically indicated measures and food and water (through tubes if necessary) be given to maintain my life, regardless of my physical or mental condition, if this could maintain the life of my unborn child until birth.

E. The State of New Jersey recognizes the irreversible cessation of all functions of the entire brain, including the brain stem (also known as whole brain death), as a legal standard for the declaration of death. Generally, physicians will follow this standard. However, if you cannot accept this standard because of your personal religious beliefs, you may request that it not be applied in determining your death by initialing the following statement:

_____ To declare my death on the basis of the irreversible cessation of all functions of the entire brain, including the brain stem, would violate my personal religious beliefs. I therefore direct that my death be declared solely on the basis of the traditional criteria of irreversible cessation of cardiopulmonary (heartbeat and breathing) function.

F. Please initial one:

_____Upon my death, I am willing to donate any parts of my body that may be beneficial to others.

_____Upon my death, I am not willing to donate any parts of my body that may be beneficial to others.
